

# Akura

Partner programme

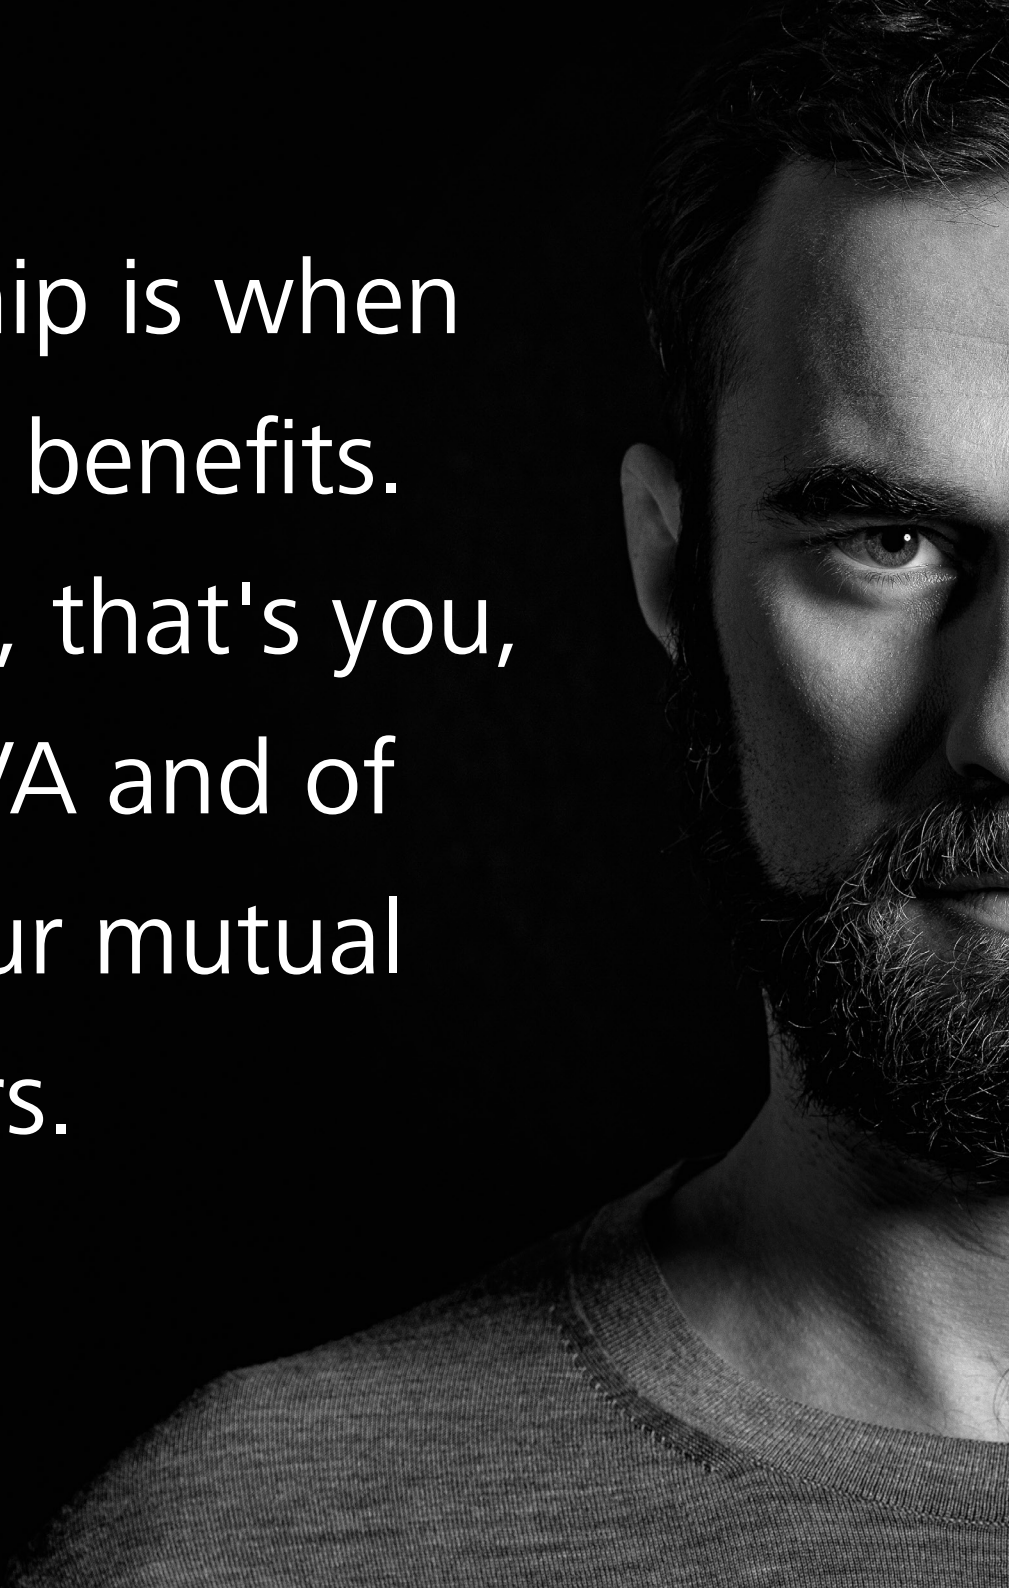

# Strong international brands

For decades EVVA has been a synonym for mechanical and electronic access systems that meet maximum technical standards. Established in 1919 as "Erfindungs-Versuchs-Verwertungs-Anstalt" (EVVA) in Vienna with a spirit that remains a vital part of our corporate philosophy to this day: we conduct our own research and development and we produce our innovative access systems in house.

With Akura 44, we are entering in a new era of mechanical access systems. The perfect occasion to launch an Akura partner programme.

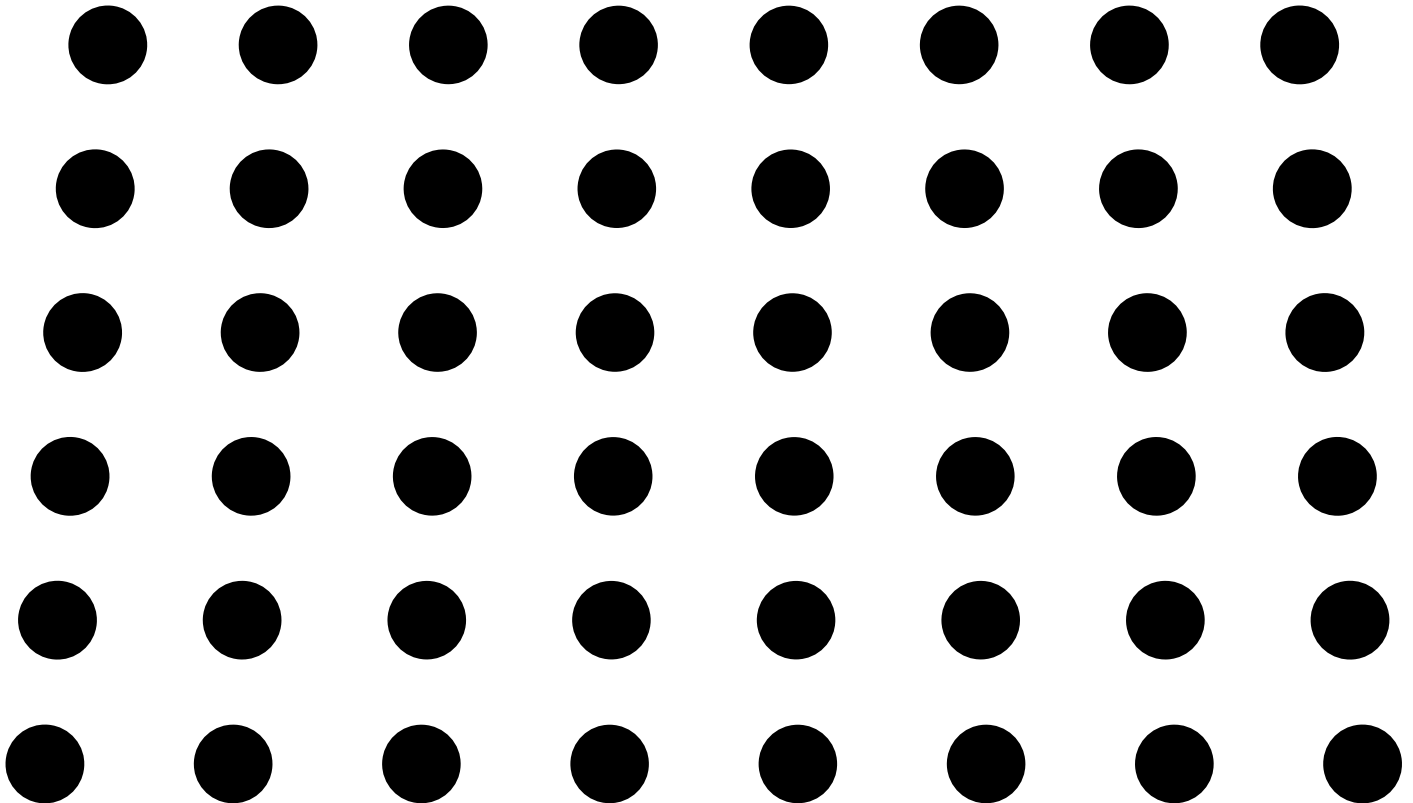

Partnership is when  
everyone benefits.  
Everyone, that's you,  
us at EVVA and of  
course our mutual  
customers.

# The Akura partner programme is for all who want more

Our Akura partner programme is aimed at specialist reseller partners who want more.

**More flexibility** thanks to a new modular system that reduces installation time even more, **more technical product excellence** that you can simply rely on, **more know-how** through the transfer of knowledge in extensive training courses in the areas of planning, consulting and implementation... and **better pricing**.

# Become an EVVA Partner for Akura access systems

---

## Your benefits

- › Top reseller discount.
  - › Lucrative individual profile\*
