

# Akura 44

A new dimension of flexibility

# Your cylinder for every door situation

Akura 44 offers you all the cylinder types that you need in your own home.

**Cam lock**  
Commonly found in letter boxes.

**Padlock**  
Secure your cellar or outdoor storage box

**Rim cylinder**  
Additional security for your front door

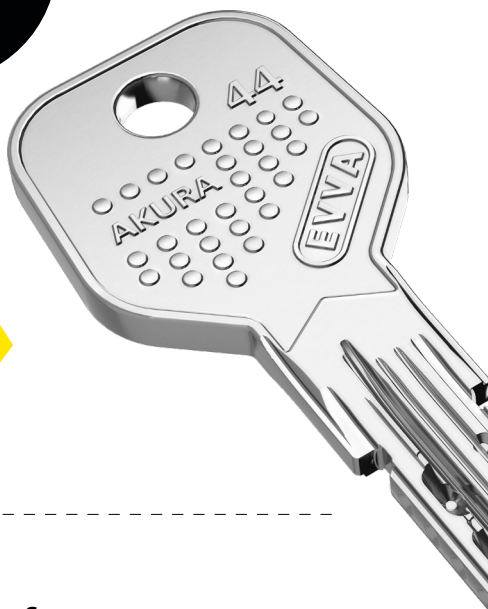

**Half cylinder**  
To operate your garage door

## A new dimension of flexibility

With Akura 44, you can rely on flexible security in your home. You can choose the optional 3D copy protection and benefit from a wide range of cylinders to equip your garden door, front door or postbox.

**One key fits  
all doors**

---

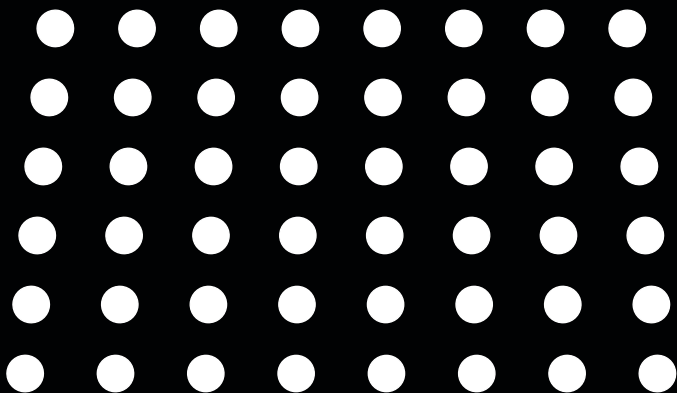

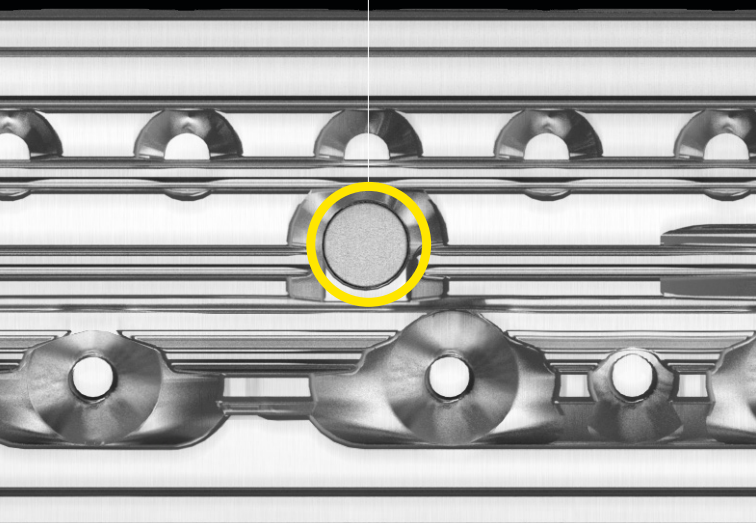

### The benefits for you

- › Optional copy protection
  - › Wide cylinder range
  - › Patent protection until 2037
-

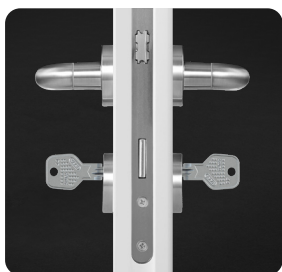

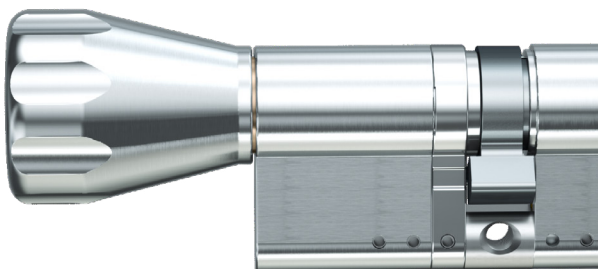

# Additional security upon request

Akura 44 offers optional copy protection for anyone who wants a greater level of security. To achieve this, a magnetic pill is attached to the key, making it 100% 3D-print-proof.

With magnetic pill 100%  
3D print protection

# The option for even more security

## External key override or thumb turn cylinder

With the external key override option, it does not matter whether a key is inserted or not. You can always lock the door from the outside. A thumb turn cylinder also offers this security.

## New keys only with cards

Copy keys and additional cylinders are available from authorised EVVA partners only upon providing proof of legitimacy - the EVVA security card.

## Protects against illegal opening methods

Akura 44 offers drilling, pulling, picking and scanning protection

# Combine with electronic locking systems

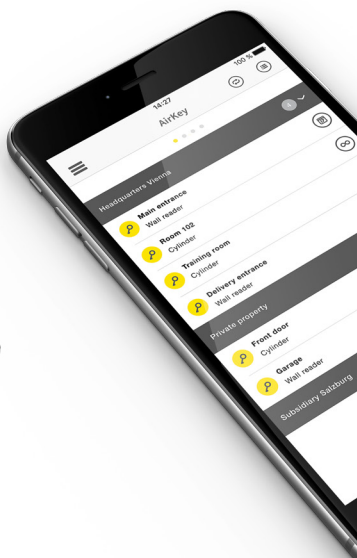

Akura 44 can be perfectly combined with EVVA electronic locking systems, such as AirKey. Choose AirKey for your front door and lock it from now on with your smartphone or combi key, which can also lock your mechanical doors.

**AirKey cylinder**  
for front doors

**Combi key**  
for all rooms

**Practical, handy and appealing**  
Akura 44 keys are also available in a wide range of colours. The colour coding helps to easily distinguish between keys.

**Innovation made in Austria**

Trust a family-owned business that has been researching, developing and producing for 100 years and operates in a respectful and cooperative way. EVVA – Leading European manufacturer in mechanical and electronic locking systems!
